Items Production Planner

Production · https://mountainstream.co/docs/items-production-planner/

- Set up as an **Inventory Item** in the **Item** file **Items › Master Catalogue.**
- Select the **Edit** pencil for the applicable item.
- Scroll down to the **Inventory Item** section and select the checkbox.
- Select **Save** top right.
- This will allow you to build up stock of an item using the **Production Planner** – **Production › Production Planner › Items.**
