Consolidated Invoices

Finance · https://mountainstream.co/docs/consolidated-invoices-in-streamline/

Go to **Customer › Settings › Edit** and Consolidate all delivery notes to one invoice.

For that option to show, the customer must have at least two delivery addresses.

[Screenshot of a customer settings page for Peet’s Coffee with sections for account setup, billing, consolidated invoices, paperless billing, POD settings, and an “Edit” button highlighted at the top. Steps 1-3 are noted for editing and opening balance.]

[Screenshot of an invoice management software displaying a customer address list, first line of delivery addresses, and a column for consolidated invoices. Purple labels highlight each section.]

[Invoice document showing itemized food products, quantities, prices, and subtotals in a table format. Includes invoice details, date, total amount, sales tax summary, and a delivery statement with consolidated invoices and additional product breakdowns.]

[A consolidated invoice with delivery statements, item lists, quantities, dates, and totals in a table format. Some text and data are redacted, and a pink geometric logo appears in the top right corner.]
