Detrack

Distribution · https://mountainstream.co/docs/detrack/

Detrack offers live:

- Delivery information.
- Vehicle tracking (Uber-like).
- Instant, paperless proof of delivery (POD).
- Pictures, signatures, barcodes
- Automatic GPS export (Google Maps).

Detrack is a third party app. Please visit Detrack.com for costs. The first vehicle is free!

We can not be held responsible for any malfunction of the Detrack platform.

GPS Tracking + Electronic POD’s.

Note that when you export to Detrack, you may only see the current date in the phone app. For full instructions, go to

Distribution › Settings › Detrack.

[A computer screen displays a customer list with highlighted menu navigation. Under DISTRIBUTION, the Settings menu is open, and the Detrack option is selected with a cursor hovering over it. Detrack's features are shown alongside rows of customer data in the background.]

Tracking Delivery Trays

You may make records of Trays left and picked up at a customer’s address and generate a report, giving you the balance held at the address.

Visit Tracking, Tracing & PoD’s for more information.

1.

[A Detrack web dashboard shows the “Distributions” tab selected. A dropdown menu highlights “Settings.” Steps are numbered, guiding users through selecting “Settings,” clicking “Add” under “Packaging types,” and entering a box name before saving.]

2.

[Screenshot of the Detrack software interface with a highlighted “Pack” section to enter tray numbers for delivery. A purple speech bubble explains this feature, and numbered annotations guide users through the process step by step.]

3.

[A screenshot of Detrack's distribution management software with dropdown menus and columns showing delivery addresses and quantities. Purple text boxes explain features like adjusting columns and recording packs in the manifest.]

4.

[A software interface showing a Detrack distribution report table with dropdown menus and filter options. Large purple labels point to buttons for showing/hiding columns, filtering by customer, and filtering by date range.]
