Gross Profit

Finance · https://mountainstream.co/docs/gross-profit/

Streamline automatically calculates gross profit per item and per customer, taking into account the items costs from its recipe and the price for the customer.

- GP & sales reports by item and by customer.
- Gain control with more accurate accounting.
- Takes into account the customer’s custom prices per item.
- Filter by date range.

[A dropdown menu under FINANCE displays options like Quickbooks Dashboard, Custom Reports, and Gross Profit. Gross Profit and its sub-options—GP by Customer and GP by Item—stand out in green and purple for easy identification.]
