Master Item Catalogue

Sales Catalog · https://mountainstream.co/docs/master-item-catalogue-managing-items/

This guide explains how to create and edit items within the Master Item Catalogue in Streamline, including setting their unit of measure and conversions.

Master Catalogue Items can be created or edited in the following ways:

- **Items › Master Catalogue – In Item Group › Add Item / Edit “Pencil”**.
- **Items › Master Catalogue › Batch Edit – Add New › Add New Item / Edit “Pencil”**.

[Screenshot of a software interface for a Vegan Brownie master catalogue item. Purple callouts explain the default unit of measure is Each, but it can also be set to grams for metric or ounces for imperial systems.]
