Recipe Production Planner

Production · https://mountainstream.co/docs/recipe-production-planner/

- Recipes *e.g.* Starters and Levain can be produced through the Production Planner.
- In the recipe file ensure **Show In Production Planner** is selected.
- This will allow you to build up stock or maintain stock of a recipe using the **Production Planner – Production › Production Planner › Recipes.**

[A screenshot of a recipe production planner interface displays a croissant dough recipe. The Show In Production Planner button is highlighted in green and circled with an arrow pointing to it.]
