Visibility Templates

Sales Catalog · https://mountainstream.co/docs/visibility-templates/

A template where items are marked visible/not visible. Attach it to one or multiple customers in Customer Settings or Batch Edit Customer Settings

[A software interface shows a dropdown menu under ITEMS with visibility templates in Streamline highlighted. Purple annotations indicate where to see customers with templates and where to attach a template.]

[A webpage displays a list of bakery items under Bread and Brezel, with colored buttons for View hidden, Show all, Hide all, Save, and Cancel—leveraging visibility templates in streamline—highlighted in orange, purple, and green at the top and right side.]

[Screenshot of a Batch Edit Customers web page using visibility templates in Streamline. A purple text bubble explains how the paperclip icon opens editable columns. The Save button is circled in green at the top right.]

[A webpage titled Lite Item Catalogue uses visibility templates in Streamline, featuring a dropdown to filter items as hidden, visible, or all. Product listings for dough items include purple callouts explaining dropdown functions and item plate display.]
