We set up your data and teach you the program

Your customers (or you) manage orders online. All production and distribution reports are generated automatically, including invoices.

Drivers get all delivery information on their phone. Proof of delivery is instant, electronic and paperless. Sales data is exported to accounts.

Automate communication with customers whenever possible:

- Changes to orders
- Changes to item catalogue
- Overdue accounts, etc.

Streamline is designed to save you time:

Clean user interfaces are intuitive and minimize the learning curve.

Unlimited users with individual permissions allow access to the database anywhere, anytime, minimizing software / spreadsheet operator time.

Schedule reports to send by email; no need to log in. Print from a wireless printer. Save at least two weeks of work a year.

Clean, Honest Pricing

No Contracts. No Hidden Charges.

Prices published at <https://mountainstream.co/pricing>

At Mountain Stream, we are harnessing the power of AI in design, coding, reporting, and automatically capturing purchase orders and vendor invoices in PDF, HTML and images.

Streamline is intuitive and easy to learn

Cyber Security

Your own database, not a common database shared by all clients of Mountain Stream.

Backups are made every fifteen minutes to changes to data and once a day for the full database.

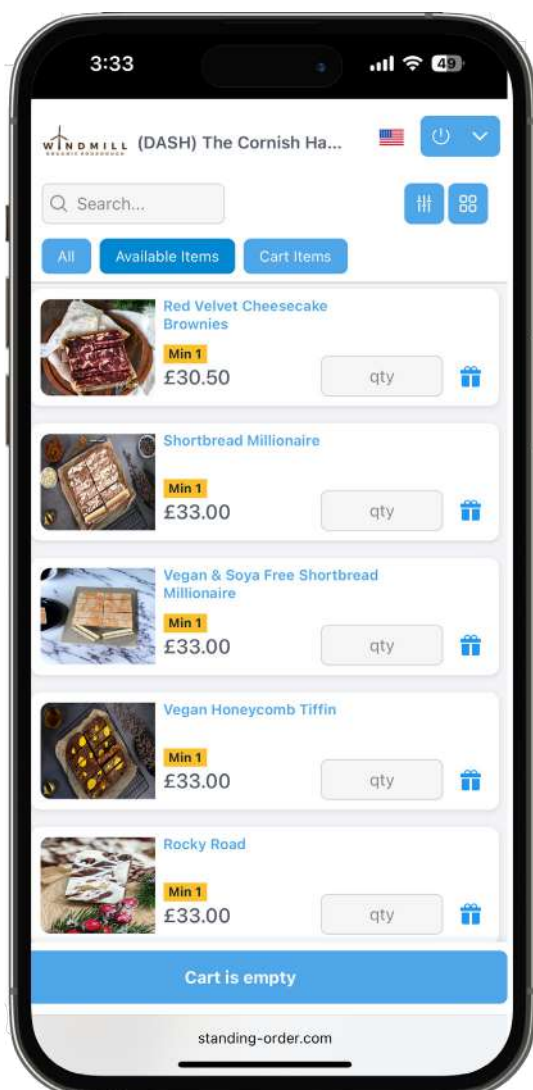

Secure, real-time information and customer service 24/7

MountainStream

3 Customer Module

Self-Service Ordering

- Standing orders, also known as weekly, permanent or repeat orders
- Shopping cart for one off and amendments to standing orders
- Easy reordering
 - Save carts as templates
 - Load frequently ordered items
- Lightning fast, mobile ordering
- Interfaces designed for fast data entry
- Order deadline locks orders and respects product lead times

Loved by busy, **demanding chefs**

Customer Relationship Management

Built in CRM

Streamline has a built in CRM to help you manage:

- Sales leads
- Samples
- Customer and staff appointments
- Complaints
- Customer history

As you create events, Streamline autopopulates fields with data already in the system. You may also:

- Set reminders
- Share events with select colleagues

Connect your team and customers working together in one application

Samples

- Free of charge
- Sent from the shopping cart

Placing the order for samples automates

- Recording to the CRM
- Scheduling follow up emails and reminders, if no orders are received

System Emails

- Mass emails: filter customer list by attribute or delivery route, handy for communicating urgent messages when running late.
- User invitations include onboarding tutorials.

Credit Account

Please fill out the form below to apply for credit account with Windmill Bakery

Applicant Information

When the application is submitted we'll send a copy to the email address entered below.

New Customers

Customers created in Streamline are exported to QuickBooks and Xero.

Credit Account Application

- Customize the application form in Finance > Settings
- Receive applications by email
- Click to request references
- Upon approval, the system will guide you to set up the new account:
 - Prices / price list
 - Payment terms
 - Invoice & packing slip templates
 - Item visibility
 - Delivery days
 - Delivery charges
 - Notes for driver on delivery
- Send an invitation to your new customer to log in and start ordering!

Sales Catalogue & Ordering

6

Items for the sales catalogue may be:

- Made in-house
 - Fresh to order
 - To stock in inventory
- Bought to sell
- Used as ingredients in recipes, for example, bread in sandwiches
- Made on select day(s) of the week

Prices & Price Lists

- The default price is always applied unless the customer has custom pricing
- Create unlimited price lists and attach them to multiple customers
- Price increases: Streamline makes it easy to adjust prices - set the percentage and apply. Option to email customers at the time of making the increase

Visibility & Templates

- Item visibility may be set by customer in their item catalogue and also by address
- Create unlimited visibility templates and attach them to multiple customers

Seasonal Item Rules

- Create rules to make an item live / not live on given dates
- Attach rules to items
- Emails with dates are sent to customers
- Use for items made only at certain times of year

Ordering

- **Streamline CE** is our Chrome Widget that listens to orders in your inbox and automatically creates them in the system
 - PDF
 - HTML
 - Excel
 - CSV
- **Web & Mobile**
 - Standing Orders
 - Cart
- **Late Orders:** customers must call in to place late orders and only an administrator with the right permissions may enter them
- **Cancelling Orders:** use the customer calendar to cancel orders for a given period of time

- Create Packaging "Recipes" and attach to multiple items
- Track costs and inventory

Recipe Management

8

Recipes

The Recipe Book is the catalogue of recipes.

There are three types ingredients:

- Raw Materials
- Sales Items
- Other Recipes

As you add ingredients to a recipe, the following are calculated:

- Costings
- Nutrition Facts
- Allergens

The screenshot shows a software interface for recipe management. At the top, there's a navigation bar with tabs: PRODUCTION, DISTRIBUTION, FINANCE, ITEMS, CALENDAR, COMPANY, CRM, STOCK. Below this, there are buttons: Cancel, Save & Go Back, Save & New, Save. The main area shows a recipe for 'Autolyse' (Max Mix: 100 kg). It lists ingredients: Ingr 1 (AP Flour, 2 Kilogr, 0.55866, \$1.90 / kg), Ingr 2 (Water, 1 Liter, 0.27993, \$0.03 / kg), Ingr 3 (Mother, 0.5 Kilogr, 0.13966, \$0.24 / kg), and Ingr 4 (Salt, Seach Gran, 80 Gram, 0.02235, \$14.30 / kg). There's also a step: Step 1 (Mix 20 min, Speed 4) and an instruction: Instruction 1 (Rest 30 min). At the bottom, there's a table 'Items made from this recipe' with columns: Item Weight, Pack Size, Pack Weight, Cost each. The table lists: Baguette Wholemeal Sliced Thin (1559.22 g, \$25.69), Turkish Bap Square Dusted (3968.929 g, \$65.38), Turkish Bap 90g (2976.697 g, \$49.04), and Turkish Bap 90g Dusted (2976.697 g, \$49.04).

Recipe Card Templates

Configure unlimited templates and assign recipe by recipe.

Templates allow you to choose exactly what data to show and customize it exactly how you like it.

548,368.25 g	Total

Recipe Cards

Recipe cards give the actual mix to be made.

When the quantity to make exceeds the capacity of the machine, recipes are split in multiple mixes.

When recipes or items are used as ingredients in other recipes, Streamline calls for those, respecting lead times.

As you mark recipes done, inventory of ingredients used is depleted and replenished by adding to the Shopping List, which in turn becomes a Purchase Order when you review it and send it to your vendor.

Use the inventory app to receive goods, move inventory and mark recipes done. You may also make stock adjustments.

- Purchase and replenish
- Traceability
- Receive Goods
- Inventory
 - Move
 - Adjustments
- Print labels
- Make recipes & sales items

Inventory App

Goods in

- Scan purchase invoice:
 - Capture items, quantities and prices
 - Enter use by dates and delivery temperature, if needed
 - Streamline auto assigns lot #
 - Print barcode labels

Make prep recipes and sales items

- Scan barcode labels as you add ingredients to:
 - make traceability records
 - deplete inventory
 - re-order

Stock count

- Scan barcodes as you take stock
- Next scan identifies previous as unopen
- Tap [¼] [½] [¾] [] to quickly enter quantity in open packs

Labels

- Print labels for goods in, prep recipes and manufactured sales items
- Labels identify location, use by date, lot # and purchase information.

All Purpose Flour

Use by: Feb 28 2026

Lot: 242-KMJ

Location: Main Storage

242-KMJ.3564

Print labels via bluetooth to Zebra printer

Supply Chain Traceability

10

Lot # Protocol

- Streamline generates all lot #s as follows: 123-XYZ, where 123 is the Julian date to easily identify the oldest lot # at a glance. XYZ are random letters
- Lot #s are related to the vendor's #s with the purchase invoice
- You may override the suggested lot # or we may configure your own protocol

Tracing Lot #s

- Amount and location in inventory
- Recipe lot #s where it has been used
- Packing slips that contain the lot # in question
- Recall button per slip, sends email
- Master "Recall" button to send a mass email to all

The Route Manager

- Organize by day of the week and also by specific dates
- The order of the route manager dictates the order of distribution reports
- An address may be delivered on different routes on different days
- Create "Sub routes", groups of addresses to move and keep together. For example, a neighbourhood; or cafes that must be delivered before 6am.

Streamline supports **complex delivery charging, by address**

Route Management & Optimization

12

Distribution App

Track & Trace

- One way packing
 - Use for delivery packaging that is only used once
 - Barcode label helps driver identify correct item on delivery
- Reusable Delivery Assets
 - Use one unique barcode per asset
 - Individually label each asset
 - Assign assets and items to the delivery address when packing
- PoDs
 - Confirm assets delivered, collected, and in customer's possession
 - Unlimited delivery pictures
- Accurate labor costings
 - Packing
 - Delivering

- ACH Bank / CSV

Payment Collection Integrations

- WholeSail
- Stripe
- Melio
- ACH Bank / CSV

stripe  Wholesail melio

Automations

- **Credit control** - set limits and automate email reminders when an account becomes overdue or reaches credit limit
- **Accounts on hold** - when a customer exceeds credit limit or violates payment terms
- **Payment Collection** - set rules when to collect and from whom, Streamline takes care of sending statements and collecting payment using your Stripe account
- **Published Invoices CSV** - configure a CSV to be sent by email when invoices are published. Import to other software or analyze in Excel

Accounts Receivable Module

- Invoices & Credits
 - Daily, Weekly or Monthly billing period, set by customer
 - Option to add card fees to select customer invoices
 - Batch multiple invoices in alphabetical or route order
 - Print or email batch in one click
- Statements

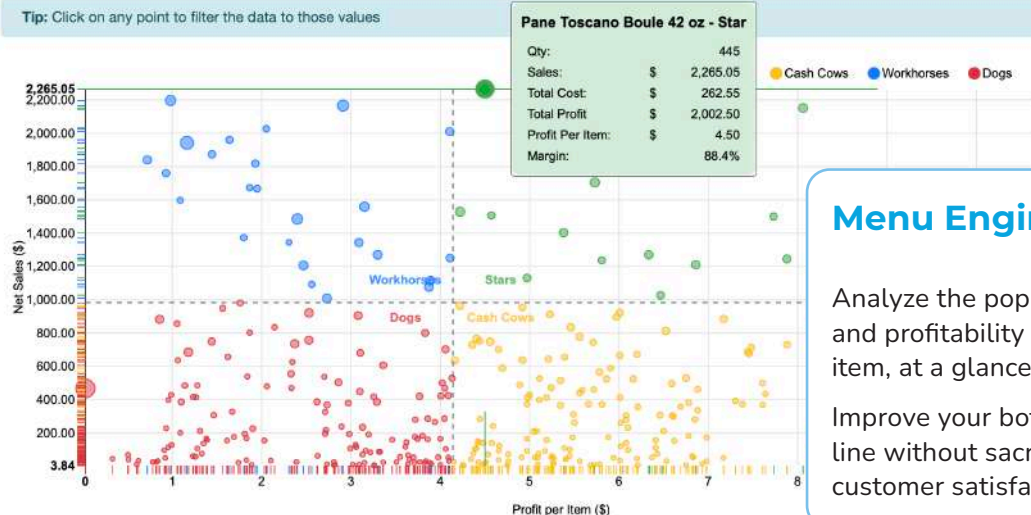

Every user action in Streamline is recorded to the [Audit Trail](#), making it easy to trace changes to data

Stars, Workhorses, Cash Cows, Dogs

Fri 08/01/2025 - Sun 08/31/2025

Each item is analyzed by gross margin and sales volume to arrive at its place in one of four profit categories

Tip: Click on any point to filter the data to those values

Menu Engineering

Analyze the popularity and profitability of each item, at a glance.

Improve your bottom line without sacrificing customer satisfaction.

Accounting Integrations

Connect seamlessly with Quickbooks Desktop, Quickbooks Online and Xero.

- Export sales invoices & credits
- Export/import: items and customers
- Import payments (via automatic webhook). *Bank reconciliation in accounting instantly updates Streamline's A/R module: customers have up to date, self-service statements*
- Export sales ledger to Sage, MYOB, Surf, Microsoft Excel and many more
- Mark contacts to receive invoices and all financial emails, for example, bookkeeper and / or accountant

Settings

Settings in Streamline may be set generically and overridden at address or customer level.

Order Minimum Settings

- Generic order minimum: below this, no orders are accepted
- Minimum for delivery: below this minimum, orders are held for pick up
- Minimum by item quantity

Customer Settings

- Paperless billing
- Daily, weekly or monthly billing
- Do not generate invoice (e.g., in-house orders)
- Custom pricing
- Custom discount rules
- Customers with multiple delivery addresses:
 - One invoice per delivery or
 - Consolidate all deliveries to one invoice.

Attributes

Attributes are columns of data added to

- Item Catalogue
- Customers
- Customer Addresses

They enable filtering, grouping and structuring reports.

You may add unlimited attributes to any list.

For example, create a column named “*Production Line*” and assign items to the relevant department.

Another column in the same list would allow creating different reports, for example “*Slicing*” (by thickness) or “*Bagging*” or “*Packing*” and so on.

Customer attributes may be used for classifying sales, for example, restaurant, caterer, hotel, etc, or to organize and prioritize production shifts, or to filter labels required.

The options are endless and the flexibility allows you to create any report you need.

Imagination is the limit.

Batch Edit

Batch Edit is available for:

- Sales Catalogue
- Ingredients
- Customer Settings
- Customer Addresses
- Address Delivery Days

It allows editing your lists in spreadsheet mode, meaning that you may copy, paste, and edit the complete list without having to open each record individually.

Game Changer!

Automations

- Send daily production and distribution reports at the time that they are needed
- Sending statements
- Collecting credit card payments
- Sending sales reports and other CSVs

Streamline en Español 24/7*

ABOUT US

Mountain Stream was founded in 2012 to harness the power of the internet and improve the efficiency of wholesale bakeries.

Founder & CEO Axel Bergstrom had a successful career in catering before joining a wholesale bakery to assist in getting the house in order.

The result was the seed that grew into Streamline.

The company has grown steadily and organically into a team of over 30.

Our clients are among the most prestigious in the world and we cater to both, the artisan baker as well as the larger plant bakeries in the US, Canada, Europe, Australasia and Latin America.

We have created a flexible and intuitive system in tandem with our clients.

Once a week, for the welfare of the team, we engage in outdoor sports. We play chess, daily, in the office.

We are friends of the earth and we care about the environment. We cycle. We recycle.

We are charitable. We support the Real Bread Campaign and connect bakeries and local charities around the globe.

MountainStream

Reviews

Daniela C.
Tartastic

This software saved my life in a time where my business grew exponentially.

We put in the time to get it up in running rather quickly, I have wondered why I didn't do it sooner.

If there are any glitches, questions, concerns, software modifications, anything I need customer support on, I have always been able to reach help quickly and efficiently. It's incredible to reach a person that speaks your language and understands your business and its needs.

Jay S.

French Press Bakery & Cafe

"Efficiency and accuracy at its best! The developers really understand our business."

Over the course of six months we reviewed multiple systems but one stood out above and beyond the rest: Streamline by Mountain Stream.

The system is intuitive and easy to navigate. We spent lots of hours stress testing it, to ensure it not only met our current demand, but also future requests. We pushed it to the limits.

Gone are the manual entry errors, maintaining Excel links to ensure the numbers propagate, the hand written notes for delivery.

Gone are simple mistakes that drove us crazy.

Mountain Stream is a must for anyone wanting to reduce waste and optimize the order to fulfillment process.

Mathieu C.
Gaston's Bakery

Streamline is truly fantastic and a very important tool.

The value for money is excellent — it saves us time every day and reduces the chance of mistakes.

Customer support is responsive and always willing to help, which makes a huge difference.

The platform is easy to use and our team was able to get up and running quickly.

Highly recommend Streamline to any bakery or food business looking to improve efficiency.

Add **instant value** to your business through cost savings, better service and improved customer *and* staff satisfaction.
